BEFORE THE HEARING EXAMINER
FOR THURSTON COUNTY

In the Matter of the Appeal of:)	Appeal No.	16-106159 VE
)	Project No.	2014108800
Patrick Townsend, Kathryn Townsend, and Anneke Jensen)	APPLICANT'S WITNESS LIST	
)		
of the May 3, 2016 Mitigated Determination of Non-Significance in the request of ChangMook Sohn for Substantial Shoreline Development Permit for an Intertidal Geoduck Aquaculture Operation)		

Applicant ChangMook Sohn, of Pacific Northwest Aquaculture, hereby submits the following list of witnesses in the above-referenced proceeding. If for any reason any of these witnesses are unavailable, Applicant reserves the right to substitute that witness with another witness possessing similar qualifications, expertise or familiarity with the issues on review. Applicant also reserves the right to call any witness on any other party's witness list submitted in these proceedings and to call rebuttal witnesses as allowed by the Hearing Examiner.

1. ChangMook Sohn, Ph.D. Applicant. Dr. Sohn may address issues relating to the proposed geoduck aquaculture farm ("Farm"), the subject property and surrounding area, and the application process.

1 2. Diane Cooper, Regulatory Compliance Director, Taylor Shellfish Company,
2 Inc. Ms. Cooper may address issues relating to regulatory compliance, aesthetics, and
3 recreation.

4 3. Brian Phipps, Geoduck Division Manager, Taylor Shellfish Company, Inc.
5 Mr. Phipps may address issues relating to geoduck aquaculture practices.

6 4. Phil Osborne, Ph.D. in Physical Geography; Principal, Coastal
7 Geomorphologist, Golder Associates Ltd. Dr. Osborne may address issues relating to
8 coastal geomorphology, sediment transport, and tidal action and currents associated with the
9 proposed Farm.

10 5. Philip Bloch, MS in Environmental Management, Resource Ecology;
11 Senior Ecologist, Confluence Environmental Company. Mr. Bloch may address issues
12 relating to intertidal habitat, including eelgrass, associated with the proposed Farm.

13 6. Rosalind A. Schoof, Ph.D. in Toxicology; Principal, Ramboll-Environ US
14 Corporation. Dr. Schoof may address concerns related to the use of plastics associated
15 with the proposed Farm, including potential health effects.

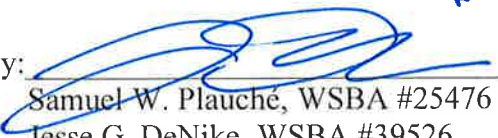

16 7. Marlene Meaders, MS in Fisheries Biology; Senior Marine Biologist,
17 Confluence Environmental Company. Ms. Meaders may address issues relating to the
18 environmental and regulatory review for the proposed Farm, including tidal elevations and
19 exposure of the proposed geoduck aquaculture gear.
